## Model DRT880 Thermometer/Hygrometer

This multi-feature temperature/humidity recorder is quick and easy to use, as well as being accurate.

The instrument automatically stores and displays both **maximum** and **minimum** readings of relative humidity (RH) and temperature.

- Temperature and RH measurement displayed simultaneously for direct comparison
- Temperature can be displayed in both °C or °F
- Automatically displays RH readings as:
  - Wet: over 65%RH
  - Dry: below 45%RH
  - Comfort: between 45%RH to 65%RH
- Impressive measuring range 0°C to 50°C, 25%RH to 95%RH
- Accuracy of temperature measurement  $\pm 1^\circ\text{C}$  (between 0°C to 40°C),  $\pm 7\%$ RH (elsewhere)
- Accuracy of humidity measurement  $\pm 5\%$ RH (between 40%RH to 80%RH),  $\pm 2^\circ\text{C}$  (elsewhere)
- Standard AAA batteries included

### Applications include:

- |                       |                           |
|-----------------------|---------------------------|
| • Air conditioning    | • Glass houses            |
| • Archives            | • Heating and ventilation |
| • Art galleries       | • Hospitals               |
| • Clean rooms         | • Laboratories            |
| • Computer rooms      | • Museums                 |
| • Electronic assembly | • Paper manufacturing     |
| • Energy management   | • Retirement homes        |
| • Food production     |                           |
