## HLX16 Series

### Humidity / Temperature Transmitter for HVAC Applications

HLX16 transmitters are the ideal solution for accurate measurement of relative humidity and temperature at a reasonable price in HVAC applications. The appropriate filter cap enables employment in heavily polluted environment.

The new developed humidity sensors HC101 guarantee excellent long term stability and resistance against chemical pollutants. Their excellent reproducibility allows a simple low-cost-one-point calibration for very good accuracy over the entire working range.

HLX16 transmitters are available as wall or duct mounted, with current or voltage output signals.

#### Typical Applications

**building-automation  
storage rooms  
climate and ventilation control**

**excellent price/performance ratio  
wettable  
long term stable  
traceable calibration**
