

hand-held digital thermometers

FM12

The Digate series provides low-cost, accurate food thermometers for use in catering and food processing environments.

The FM12 pocket-size digital thermometer is ideal for checking core temperatures of food before serving. Its large LCD and quick response time allow temperatures to be viewed quickly and easily. The FM12 includes a needle tip for easy insertion into food products and data hold for those hard-to-reach areas. Its small size and protective sheath allow users to carry it around like a pen for quick checks when required.

Specifications

- Water resistant IP65
- Waterproof IP67
- Tip type: needle
- Tip diameter at sensor: 0.15" 0.12 (3.1mm)
- Stem length: 4.9" (125mm)
- Data hold
- °C/°F switchable
- Range: min. temp°F -58°F, max. temp°F 300°F 300°F
- Range: min. temp°C -50°C, max. temp°C 150°C 150°C
- Accuracy: $\pm 2^\circ\text{F}$, ($\pm 1^\circ\text{C}$)
- Resolution: 0.1°F/C
- Auto off
- Sample time: 1.5sec
